BUILDING A SUSTAINABLE FUTURE

FEATURES & BENEFITS

- Engineered to be robust and durable for rental and heavy contractor usage.
- Lightweight yet durable for easy transport. Fits in a standard car boot when the handle is folded.
- Low Hand-Arm Vibration design for longer safe usage times.
- High performance 13kN vibration unit gives excellent compaction force and travel speeds.
- Environmentally friendly, emission free for use indoors & in poorly ventilated areas such as basements and tunnels.
- Can be operated in environmentally sensitive areas, such as green spaces, nature reserves, national parks, rural railway cuttings and emission controlled urban areas, without any exhaust emissions.
- No routine power unit maintenance eliminates servicing or costly downtime due to repairs.
- Avoid problems with modern fuels. No blocked carburettors.
- Cordless design gives added operational flexibility.
- Quick release / connect **82v** battery with digital power level display.
- **82v** batteries are interchangeable with the other products in the Altrad Belle **E+ 82v** range, for added convenience and flexibility.
- Baseplate designed for optimised speed and manoeuvrability.
- Fitted with manual handling points.
- Easy to operate and control, the baseplate does not dig in when dragged backwards or turned.
- Optional paving pad for block paving applications available.
- Customer colour options available.
